

Halt Is Asked In Las Vegas Wiretap Suit

Justice Dept. Plea
Is Based on Baker
Case Developments

LAS VEGAS, Nev., June 17 (AP)—The Department of Justice asked Clark County District Court today to halt further litigation in a \$5 million wiretapping suit pending developments in the Bobby Baker case.

The suit was brought by Fremont Hotel owner Edward Levinson against four FBI agents and the Central Telephone Co.

Baker and Levinson were stockholding partners in the Serv-U Corp., a vending machine company.

[During the Senate investigation of the Baker case early in 1964, Edward Bennett Williams, Baker's attorney, complained that his client's conversations were monitored on Levinson's tapped telephone.]

[At the time, Baker complained to the Senate Rules Committee that "my privacy of communication has been invaded by agents of the government."]
